

# WD Red Pro, Optimised for NAS Compatibility

Designed specifically with **small and midsized business** in mind, WD Red™ Pro drives are engineered to handle the increasing workloads of your business.

## Increase Efficiency and Productivity

WD Red™ Pro comes equipped with NASware™ 3.0, which increases system compatibility allowing for seamless integration with your existing network infrastructure. The NASware 3.0 technology also provides **robust data protection and optimal performance** for NAS systems operating under heavy demand.

## From Small to Big Business

Increase the efficiency and productivity of your business. With drives up to 12TB, WD Red Pro drives are built for single to 24-bay NAS systems and packs the capacity to store your precious data in one powerhouse unit. **Add value to your business by enabling your employees to quickly share and back up folders reliably.**

## Cooler Temperatures

By reducing power consumption, the operating temperature of your NAS stays cool. With a lower temperature in your system, you can **create a more reliable solution for your NAS.**

Take the guesswork out of selecting a drive. At Hypertec we can help you find the perfect storage for your NAS system.

For more information about Western Digital® Drives, or help to find the right drive for you, speak to your Hypertec Account Manager today.
