

## Quickly find Upgrades with the Hypertec Product Configurator

The Hypertec Online Product Configurator's powerful search options make finding the right product a quick and simple process.

### Upgrade with Ease

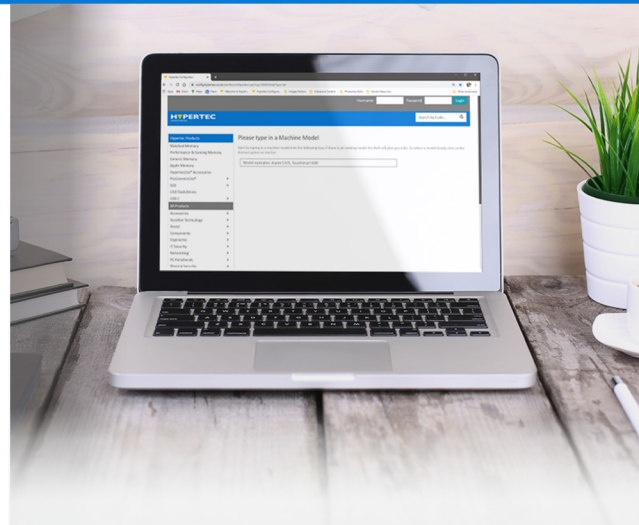

Hypertec's extensive range of [Memory](#), [SSDs](#) and [Projector Lamps](#) are available as matched OEM equivalent solutions. Users can also browse by specification such as Capacity, Speed, or Technology.

When supplying Laptops, Workstations, or Mobile Devices to your customers, use our Configurator to easily recommend [Matched Upgrades](#) to maximise system performance for the End User and increase Attach margin for you. Simply search by Machine Model or OEM part number to find the perfect match.

### Browse Products from other Vendors

Hypertec also offer a wide range of premium products from other Vendors, all of which can be cherry-picked and combined to create a bespoke solution for your customer.

For more information about Hypertec Matched Solutions, or help using the Product Configurator, speak to your Hypertec Account Manager today.
