Wherever possible, we utilise new components or modules, however, some may be built or sourced as New Old Stock. Given that many of these components are no longer available, there may be occasions, where we may need to utilise professionally reclaimed and re-purposed components, which are removed under full ESD environments, and then used to manufacture new modules, using new PCB and ancillary components. Within our "Legacy" range, we may on occasion, when driven by product scarcity, use complete reclaimed and requalified modules. In all cases, and with all sources of product, Hypertec fully test and warranty these products with a lifetime warranty and free technical support. To this end, there is no difference in the performance or reliability of products created from any of the above sources, as they undergo the same level of QA and customer service, and are covered by our no quibble lifetime warranty.
