

## Keytools Assessment, Consultancy and Training Services

Hypertec offer a range of Keytools Assessment, Consultancy and Training Services, which enable organisations to **adopt Ergonomic & Assistive Technology Strategies** for anyone from the individual user, up to provisions for the entire workforce.

### Training and Consultancy

Our experience has put Hypertec at the forefront of the Ergonomic and Assistive Technology market. As a result, we can provide a **strategic insight into solving key business concerns including:**

- ✓ Ergonomic based Mobile Working Strategies
- ✓ Staff productivity including Health and Safety
- ✓ Cost Saving Strategies including reducing Absenteeism
- ✓ Inclusive Working Environments through Assistive Technology

### Assessment Services

Keytools has a network of UK assessors consisting of qualified Physiotherapists, Occupational Therapists, Osteopaths and Technical Advisors with a minimum of 2 years' experience in recommending Assistive Technology solutions. This enables Hypertec to provide **Complex Assessments, Vocational Assessment and Single Issue Assessment.**

**For more information about Assessment, Consultancy and Training from Keytools, speak to your Hypertec Account Manager today.**
